Abstract. The 3rd International Workshop on Cloud Technologies in Education (CTE 2014) took place on December 26, 2014, in Ukraine and World in the blended mode. This volume compromise 52 papers carefully selected from 87 submissions.

Keywords: Cloud-based learning environment; Cloud technologies of open education; Cloud technologies of mobile learning; Cloud-based learning management systems; Cloud technologies for informatics learning; Cloud technologies for mathematics learning; Cloud technologies for physics learning

3rd International Workshop on Cloud Technologies in Education (fig. 1) took place on December 26, 2014, in Ukraine and World in the blended mode. Traditionally, the outstanding webinar software was used both to participate and translate this event (<http://www.wiziq.com/online-class/2399552-cte2014-part-1> and <http://www.wiziq.com/online-class/2399552-cte2014-part-2>) – WiZiQ (thanks to Prof. Vladimir Kukharenko).

Workshop organizers are Institute of Information Technologies and Learning Tools of the NAPS of Ukraine, Kryvyi Rih National University, Cherkasy State Technological University, National Technical University “Kharkiv Polytechnic Institute”, Taras Shevchenko National University of Luhansk, Kherson State University, and Eastern Washington University [1; 2].

Program Committee Chair: *Ilia Teplitsky*, Kryvyi Rih National University, Kryvyi Rih, Ukraine

Steering Committee:

– Institute of Information Technologies and Learning Tools of the NAPS of Ukraine, Kyiv, Ukraine:

Valeriy Bykov, D. Sc., Prof., Acad. of the NAPS of Ukraine

Julia Nosenko, Ph. D.

Maria Shyshkina, Ph. D.

Oleg Spirin, D. Sc., Prof.

Andrey Stryuk, Ph. D.

– Kryvyi Rih National University, Kryvyi Rih, Ukraine:

Natalia Rashevskaya, Ph. D.

Sergey Semerikov, D. Sc., Prof.

Katherine Slovak, Ph. D.

Figure 1. CTE 2014 logo and cover.

Nikolay Stryuk, Ph. D.

– Cherkasy State Technological University, Cherkasy, Ukraine:

Vitaliy Snytyuk, D. Sc., Prof.

Anatoly Timchenko, D. Sc., Prof.

Yuriy Tryus, D. Sc., Prof.

– Kharkiv, Ukraine:

Lyudmila Bilousova, Ph. D., Prof., H. S. Skovoroda Kharkiv National Pedagogical University

Oleksandr Kolgatin, D. Sc., Prof., H. S. Skovoroda Kharkiv National Pedagogical University

Valery Kravets, Ph. D., Prof., National Technical University “Kharkiv Polytechnic Institute”

Vladimir Kuharenko, Ph. D., Prof., National Technical University “Kharkiv Polytechnic Institute”

Nadiya Olefirenko, Ph. D., H. S. Skovoroda Kharkiv National Pedagogical University

– Taras Shevchenko National University of Luhansk, Luhansk, Ukraine:

Lyubov Panchenko, D. Sc., Prof.

Nikolay Semenov, Ph. D.

Vladislav Velichko, Ph. D.

– Kherson State University, Kherson, Ukraine:

Gennadiy Kravtsov, Ph. D., Prof.

Aleksander Spivakovsky, D. Sc., Prof.

– Eastern Washington University, Cheney, USA:

Garry Pratt, Dr.

Figure 2. Workshop highlights

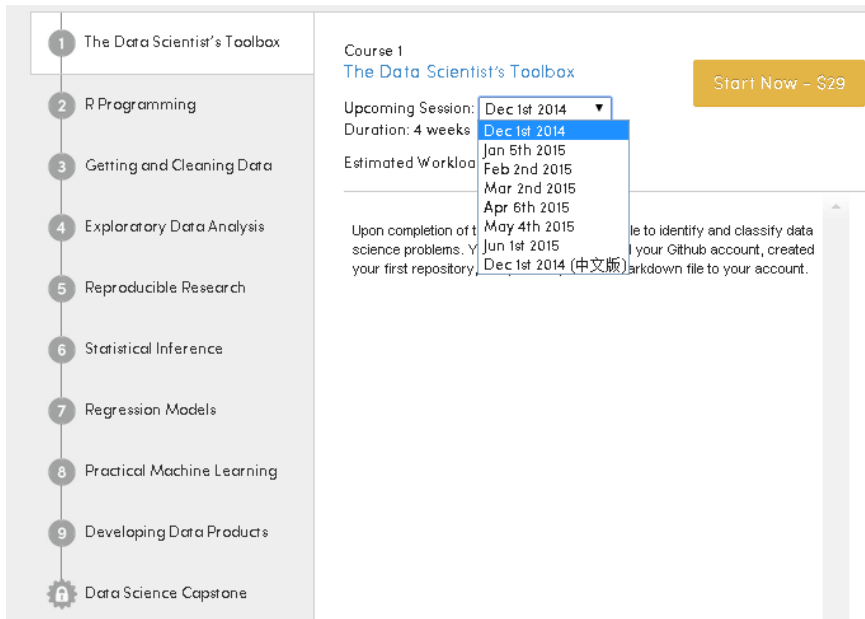

Figure 3. Workshop highlights

The 3rd volume of CTE Workshop Proceedings is collection of the best papers selected by the CTE 2014 Steering Committee in the CTE topic of interest:

Track 1: Cloud-based learning environment

Yu. G. Nosenko, V. O. Bogdan

Characteristics of Google cloud services in aspect of preschool educational institution management

S. H. Lytvynova

All-Ukrainian project “Cloud services in education” as a factor of development of cloud-oriented educational environments in general educational institutions

S. V. Shokaliuk, I. S. Zakarlyuka

Cloud technologies in secondary schools

N. V. Bakhmat

Theoretical principles of cloud-based pedagogical environment design for primary school teachers’ training

N. V. Oleksyuk

The ability to use cloud technologies teacher in an elementary school

A. P. Martynenko

Cloud technologies for educational institutions

A. Y. Melnikov

On the experience of the implementation of cloud computing in the Donbass State Engineering Academy

V. O. Nizhegorodtsev

The using cloud technologies in training future tax specialists of State Fiscal Service of Ukraine

N. H. Rusina

Implementation of information and communication technologies when preparing future lawyers

V. M. Andriievska, N. V. Olefirenko

The use of cloud technologies in preparing future teachers (fig. 2)

T. O. Oliynyk

Features of the teacher training as leader of the implementation of ICT innovations

O. G. Fedorenko

Improving the effectiveness of self education of future teachers of technology

N. A. Khmil

Experience of preparing future teachers to use the cloud services to create presentations in the educational process

V. V. Khivrych

Design of information and communication environment of education in Zaporizhia region

T. A. Vakaliuk

LMS service for SaaS as alternative solution to the problem of designing a cloud-based learning environment for computer science bachelors

S. A. Pottosina, T. S. Dziabikhina

Adaptation of cloud computing in e-learning system

D. V. Stolbov

Features of development software for teaching secondary school students the Internet security

B. E. Bodnar, A. A. Kosolapov, E. B. Bodnar

Organizational aspects of creation and exploitation of the cloud systems

Track 2: Cloud technologies of open education

Yu. G. Nosenko

International standards in the sphere of cloud computing

V. M. Kukharenko

Cloud technology in science research

A. V. Halytskyi, P. V. Mykytenko, V. M. Franchuk

Cloud computing as a tool to support online activities

Yu. M. Glavcheva, V. M. Kukharenko

Open distance learning course “Curator of content”: experience

L. F. Panchenko

The study of Coursera’s data science specialization (fig. 3)

V. V. Pikalova

Improving professional training of pre-service math teachers on the basis of massive open online courses

Iu. N. Bogachkov, Iu. V. Iakovenko, P. S. Ukhan

Using the HN-MOOC platform to support learning in secondary schools

Track 3: Cloud technologies of mobile learning

M. A. Kyslova, K. I. Slovak

Cloud tools of constructing mobile learning environment in higher mathematics

M. M. Hordiienko

Cloud-based and mobile learning in the training of specialists in higher education

V. V. Liakutin

Aspects of mobile technology application in distance learning

M. V. Petrashenko

Use cloudy App Builder in the learning process

Yu. G. Nosenko

Citrix cloud solutions for children with special learning needs in the USA

Track 4: Cloud-based learning management systems

A. A. Minaev, E. A. Bashkov, N. N. Datsun

Higher engineering education at DonNTU: from tradition to innovation

I. V. Gerasimenko, V. V. Glyshenko

Using cloud services in distance learning course

I. L. Lebedeva

Cloud technologies as way to effective professional education

S. M. Protska

Components of computer-oriented methods of formation of professional competence of future philologists

Iu. N. Bogachkov, I. N. Zakomirnyi, P. S. Ukhan

Distance learning support service for night general education schools

A. V. Lytvyn

Development of e-learning by Microsoft: from local solutions to cloud services

O. S. Papka

Benefits of implementation of Microsoft cloud technologies in educational institutions

E. F. Matveeva, V. S. Mkrttchian, N. N. Stepkina, M. D. Amreeva

Virtual learning how to innovative educational activities

S. S. Lebedev

Virtual conferences for professional training and retraining

T. V. Tarnavskaya

The problems of creating a personal learning environment

Track 5: Cloud technologies for informatics learning

E. V. Zaloyko, Yu. V. Tryus

Web-oriented software for solving linear programming problems by graphical method

M. O. Manko, Yu. V. Tryus

Creating a web-oriented expert system for solving problems of optimization

L. Yu. Huliailo, Yu. V. Tryus

Web-oriented software for evaluation of the risk of enterprise bankruptcy

O. O. Zhytskyi, Yu. V. Tryus

Web-oriented software for expert assessment questionnaire method

N. O. Ponomaryova

Preparing future teachers of informatics to professional orientation in IT-specialities high school pupils

Track 6: Cloud technologies for mathematics learning

V. Ye. Velychko

The use of cloud technology in the preparation and publication of mathematical texts

G. G. Shvachych, V. S. Konovalenkov, T. M. Zaborova

The use of the modern informational technology in the blended learning of fundamental disciplines

N. M. Kiianovska

The introduction of blended learning in the process of learning mathematics

Track 7: Cloud technologies for physics learning

V. I. Olevskii, Yu. B. Olevska

Using of cloud technologies while studying of exact sciences in secondary school

O. V. Merzlykin

The results of implementation methods of using cloud technologies as tools of formation high school students' research competencies in profile physics learning

M. I. Sadovyy, O. M. Tryfonova, M. V. Khomutenko

A construction of course is in Moodle and use of Ejsapp for studies of physics

V. M. Shatalov, V. S. Martynyuk, M. V. Saveliev

Through global monitoring to school of the future: smartphone as a laboratory in pocket of each student

CTE Workshop Proceedings provides direct open access to its content, based on the following principle: free open access to research results enhances global knowledge sharing.

The international editorial board appreciates the contribution of each author. We sincerely thank our readers for their interest in CTE 2014, our reviewers for their competence, delicacy and goodwill.
